

ANTON SHAPOSHNIKOV

Front-end Developer (React.js)

Based in Ireland

“

I am considering React.js developer position with a lot of focus on UI developing. Every day I delve deeper into the study of React, JavaScript and Blockchain technologies.

I can work independently in a team. I know a lot, what I don't know - I'll find, what I don't find - I will competently ask my colleagues. I know how to work in a team and really want to develop professionally.

”
